

MHYCO LORENCE ABACAJAN SUELLO

FULL-STACK WEB & MOBILE DEVELOPMENT | SYSTEMS ANALYSIS | IT SUPPORT

Parañaque City • 0961 674 9147 • mhycosuello@gmail.com
• portfolio-suello.vercel.app

Fourth-year BSIT student specializing in Web and Mobile Applications, with hands-on experience building full-stack web systems and mobile applications through team-based capstone and academic projects. Skilled in React, React Native (Expo), Flutter, Node.js, Express.js, and MongoDB, with experience in feature implementation, systems analysis, testing, and technical documentation.

TECHNICAL SKILLS

Full-Stack Web & Mobile: React.js, React Native (Expo), Flutter/Dart, JavaScript, Node.js, Express.js, MongoDB, REST APIs, HTML/CSS, Java, Python, Spring Boot.

Virtual Machines & Labs: Virtual machine setup/configuration, virtualized firewall/server labs, network configuration and troubleshooting.

UI/UX Design: Figma, Canva, Adobe Photoshop, wireframing, prototyping, responsive UI design.

Productivity: Microsoft Word, Excel, PowerPoint; Google Docs and Drive; technical reports, documentation, and presentations.

Networking & Servers: LAN/WAN, TCP/IP, routing/switching, OPNsense firewall, Windows Server, Active Directory, Group Policy (GPO), DNS and DHCP.

Testing & Systems Analysis: Requirements and workflow analysis, functional/regression testing, test cases, bug tracking, system performance evaluation, documentation.

Tools & Version Control: Git/GitHub (branching, pull requests), VS Code, Android Studio, NetBeans, Postman, Vercel.

Hardware & IT Support: Computer hardware, hardware/software troubleshooting, basic Windows support and configuration.

SELECTED IT PROJECTS

FLEETX — Smart Car Rental & Fleet Management | Capstone | Systems Analysis & Development

- Collaborated on development of the GPS-enabled web and mobile fleet management system, contributing to implementation, requirements analysis, functional testing, and technical documentation.
- Technologies: React, React Native (Expo), Node.js, Express.js, MongoDB, Google Maps API, Traccar, and Cloudinary.

Clinic Management System | MERN Web Application | Systems Analyst

- Helped develop the full-stack MERN clinic management web system, contributing to booking, role-based access, patient and admin workflows, testing, and documentation.

Clinic Mobile Prototype | Flutter / Dart | Academic Project

- Contributed to development of a Flutter/Dart clinic mobile prototype, including registration, appointment booking, rescheduling, and role-based navigation screens.

EDUCATION & ACADEMIC RECOGNITION

National University – Mall of Asia | BS Information Technology (Mobile & Web Applications), 2023–Present

Dean's Lister: First Year through Third Year

Parañaque National High School – Main | Senior High School — With Honors; Junior High School

ORGANIZATION & COMMUNITY ACTIVITIES

JPCS – NU MOA Chapter (Member) • **NU MOA COMEX / DSWD** community repacking volunteer; documentation for a digital-footprint awareness activity in Pasay.

COURSES & CERTIFICATIONS

Cisco Networking Academy | June 2025

Introduction to Packet Tracer Exam • Getting Started with Cisco Packet Tracer • Exploring Networking with Cisco Packet Tracer • Exploring IoT with Cisco Packet Tracer

Simplilearn SkillUp | Introduction to Computer Networking (Apr 21, 2025)

KadaKareer & Packetworx | IoT & LoRaWAN Workshop Series — Certificate of Participation (Apr 11, 2026)

SEMINARS & TRAINING

16th PALSCON National Conference & 1st Philippine HR Expo — Parallel Learning Track (Sept 3, 2026)

KadaKareer & Packetworx — IoT & LoRaWAN Workshop Series (Apr 11, 2026)
